

Xavier Prieto

Data Scientist · 4 years of experience

xavier.prieto@gmail.com · +34 612 345 678 · Barcelona, Spain

PROFILE

Data Scientist with 4 years of experience designing and deploying machine learning models to optimize marketplace dynamics and business operations. Skilled in building scalable pipeline architectures and translating complex dataset patterns into actionable product enhancements. Proven track record of collaborating with cross-functional teams to drive measurable conversion gains.

EXPERIENCE

Data Scientist

2023-07 — Present

Cabify

Developed dynamic dispatch and demand prediction models using Python and scikit-learn to optimize vehicle allocation. Processed telemetry data from millions of monthly active trips via Apache Spark, reducing estimated time of arrival errors by 14%. Designed real-time monitoring workflows for model performance, reducing detection latency for prediction drift by 40%.

Data Scientist

2022-01 — 2023-06

TravelPerk

Engineered automated hotel recommendation algorithms on Snowflake and Python, improving flight-to-hotel booking conversion rates by 8.5%. Built and monitored model retraining pipelines using MLflow, reducing deployment times from days to under two hours. Maintained feature store tables to support a team of 6 engineers with clean, standardized analytical data.

Data Scientist

2020-10 — 2021-12

Wallapop

Designed search ranking features and buyer-seller matching heuristics using SQL and statistical modeling techniques. Implemented automated ETL cleaning pipelines that reduced processing times for listing analysis by 30%. Created interactive dashboards in Tableau to visualize search conversion rates, identifying key areas that increased platform transactions.

EDUCATION

MSc Computer Science · 2020

Universitat Politècnica de Catalunya

BSc Data Science and Engineering · 2018

Universitat Politècnica de Catalunya

SKILLS

Languages	Python · SQL
Frameworks	scikit-learn · Pandas
Design	Machine Learning
Data	Apache Spark · Snowflake
Tools	Tableau · MLflow · Docker · Git

LANGUAGES
