

Aino Virtanen

Junior Full-Stack Engineer · 3 years of experience

aino.virtanen@gmail.com · +358 45 788 2341 · Helsinki, Finland

PROFILE

Junior Full-Stack Engineer with 3 years of experience building scalable web applications and microservices using TypeScript, Node.js, and React. Proven track record in optimizing backend database queries and developing responsive user interfaces in fast-paced tech environments. Experienced with cloud infrastructure, containerized deployments, and GraphQL APIs.

EXPERIENCE

Junior Full-Stack Engineer

2022-09 — Present

Spotify

Developed web features for creator tools using React, TypeScript, and Node.js serving over 4 million daily active users. Migrated legacy REST endpoints to GraphQL, reducing client fetch latency by 35% across internal dashboard modules. Optimized PostgreSQL database queries and introduced Redis caching layers to improve API throughput by 25%.

Junior Software Engineer

2021-03 — 2022-08

Klarna

Maintained payment checkout components built with React, Node.js, and Python within an agile team of 8 engineers. Deployed microservices on AWS using Docker, achieving 99.95% service uptime and reducing build pipeline execution time by 20%. Authored automated integration test suites using Jest, raising codebase test coverage from 68% to 85%.

EDUCATION

BSc Computer Science · 2021

Aalto University

SKILLS

Languages	TypeScript · Python
Frameworks	Node.js · React · GraphQL · Tailwind CSS
Data	PostgreSQL · Redis
Cloud	AWS
Tools	Docker · Jest · Git

LANGUAGES

Swedish · Native English · Fluent
