

Declan Doyle

Data Scientist · 6 years of experience

declan.doyle.data@gmail.com · +353 83 456 7890 · Dublin, Ireland

PROFILE

Data Scientist with 6 years of experience building machine learning pipelines and analytical solutions within top-tier fintech companies. Expert in translating complex transactional data into predictive models and actionable business intelligence. Proven record of optimizing transaction latencies and increasing checkout conversion metrics through rigorous experimentation.

EXPERIENCE

Data Scientist

2021-08 — Present

Revolut

Deployed transaction-routing machine learning models in Python using scikit-learn, reducing processing latency by 14% and decreasing cross-border transaction costs. Developed scalable ETL pipelines using Apache Spark and SQL to ingest 20M+ daily events, presenting operational KPIs in interactive Tableau dashboards. Engineered and evaluated weekly multi-variant checkout A/B tests, increasing conversion rates by 4.2% for the commercial division.

Data Scientist

2018-01 — 2021-07

Monzo

Constructed customer churn prediction models leveraging Machine Learning algorithms, directly reducing customer attrition by 5.5% over 18 months. Built and automated localized business performance reports in Power BI to support active regional expansion strategies. Partnered with engineering teams to refactor legacy SQL queries, decreasing batch reporting pipeline latency from 12 hours to under 30 minutes.

EDUCATION

MSc Business Analytics · 2017

Imperial College London

SKILLS

Languages	Python · SQL · Pandas
Frameworks	scikit-learn
Data	Machine Learning
Tools	Tableau · Power BI · Git
Cloud	Apache Spark
Product	A/B Testing

LANGUAGES

English · Native Catalan · B1
