

Elif Yılmaz

Senior Full-Stack Engineer · 10 years of experience

elif.yilmaz.dev@gmail.com · +90 532 456 7890 · İstanbul, Türkiye

PROFILE

Accomplished Senior Full-Stack Engineer with 10 years of experience designing and scaling web applications in high-throughput e-commerce, fintech, and AI localization sectors. Expert in modern JavaScript/TypeScript ecosystems, cloud-native deployments, and performance optimization of relational databases. Proven track record of delivering user-centric architectures that scale to millions of active users.

EXPERIENCE

Senior Full-Stack Engineer 2022-09 — Present
Trendyol

Architected high-throughput merchant dashboard components using React, Next.js, and Node.js microservices. Optimized PostgreSQL queries and implemented AWS ElastiCache, reducing page-load latency by 35% for over 50,000 active daily merchants. Collaborated with product design teams to overhaul core checkout flows, yielding a 14% improvement in conversion rates.

Senior Software Engineer 2020-03 — 2022-08
Unbabel

Designed a translation pipeline management editor utilizing TypeScript, React, and serverless AWS Lambda backend services. Integrated real-time translation APIs handling 1.2M monthly requests with 99.99% system availability. Mentored 4 junior engineers and standardise code-review protocols, which reduced overall pull request lifecycle times by 20%.

Full-Stack Developer 2017-05 — 2020-02
Satispay

Built core mobile payment integration interfaces and internal tools using Node.js, TypeScript, and PostgreSQL. Maintained strict PCI-compliant transaction processing workflows, decreasing processing exceptions by 18%. Spearheaded the migration of deployment pipelines onto AWS ECS, reducing software release cycles from bi-weekly to daily deployments.

Software Engineer 2014-06 — 2017-04
Feedzai

Developed real-time fraud detection analytical dashboards using React and Node.js backend services. Designed data visualization charts capable of handling high-velocity datasets, reducing analysis interface loading times from 8 seconds to under 1.5 seconds. Worked within an agile squad of 8 engineers to deploy mission-critical updates to major enterprise banking partners.

SKILLS

- TypeScript
- Node.js
- React
- PostgreSQL
- Next.js
- AWS
- Docker
- Redis
- GraphQL
- Tailwind CSS

EDUCATION

MSc Interaction Design · 2014
Boğaziçi University

BSc Computer Engineering · 2012
Boğaziçi University
